Solicitors—DRAKE & JACKSON.

Bankers—BANK OF BRITISH COLUMBIA.

THE COMPANY IS FORMED FOR THE purpose of acquiring the property known as the Belmont Factory, situate on Esquimalt Harbor, and the business carried on therein, consisting of Tanning and Boot and Shoe Manufacturing, and of continuing the same.

The purchase would include the Land, Buildings, Machinery, Plant, Stock-in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disinterested persons.

The Boot and Shoe Department has for the past two years been carried on under the management of Mr. Switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Tannery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business.

The Factory is well arranged, and is fitted with the most approved Machinery.

The Tannery has every appliance for the saving of labor.

The Water Power which is utilized for the conduct of works, is all that could be desired, and could readily be increased to ten times its present power, if any time required, either for the purposes of this undertaking, or for any other Manufactory. The supply derived from Springs on the Estate, is very soft in quality, and is never failing.

In fact the business is in thorough working order, and Mr. Switzer's services as Manager of the Works will be retained upon terms favorable to the Company.

The Land consists of 546 acres, known as the Spring Vale Estate, some of which is of excellent quality.

The Timber is of considerable value for Firewood, the situation being favorable for easy delivery.

The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactory.

The goods are specially adapted to the requirements of the Provincial trade, have given general satisfaction and at a profit successfully compete with the imported article.

The sales for 1872 amounted to nearly $30,000, which, considering the short time the enterprise had been in operation, shows the favor with which the products have been received.

The importation of Boots and Shoes as declared at the Customs House for the year 1871, was about $100,000, representing a selling value, after adding duties etc., of say $150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaking.

The Tannery operations only commenced in August last and as the tanning process involves a period of several months, the business of this Department is in its infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of Hides, the out-turn will be sufficient for the supply of the general demand for harness, mill belting, &c., in addition to the requirements of the Boot Factory.

The Belmont Boot and Shoe Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realized.

The value of industrial institutions to the well-being of any country is indisputable, and as the hides produced in the Province are now being manufactured into leather, which in turn is made into boots and shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive institution insures will, aside from the remunerative character of the business, have due weight with all who are in any way interested in the prosperity of the Province.

It should be remarked that this company will become at once possessed of two businesses with established connections, without any interruption to working or loss of time in transfer, and will therefore have from the first day of its possession a revenue from a business which is capable not only of immediate, but, in the future, almost unlimited extension.

Most similar undertakings of any magnitude are now worked successfully by joint stock companies, both in Great Britain and the United States.

The transfer of the property to the Company will only be made upon terms satisfactory to the Provisional Board of Directors, based upon the valuation. The purchase will be effected to a large extent in shares retained by the present proprietor, a portion of which will not participate in any profit until a dividend of 10 per cent. has first been paid to the new share holders.

Applications for shares may be made to the Secretary pro tem., the Bank of British Columbia, or to Messrs. Drake & Jackson. mh23dw

Daily British Colonist.

SATURDAY MORNING, JUNE 14TH, 1873.

L. P. FISHER, 20 and 21 New Merchants' Exchange, is our authorized Agent in San Francisco.

Spurious Journalism.

Finding the business of peddling Grit small beer not to pay, off goes our oscillating contemporary to the other end of the arc; from the Scylla—to change the simile — of scepticism it rushes to the Charybdis of credulity. It only ceased to reiterate and predicate Grit rumors of the failure of the great railway scheme, to indulge in reckless and unwarrantable affirmation of success. Yesterday morning we exposed the absurdity of that part of the wonderful telegram which, we are told, has excited in this community "feelings of the most unmixed satisfaction"—not because it was untrue, but because it was very old. This morning we propose saying a word or two about that part of it relating to the particular route by which the railway is to reach Esquimalt. "Orders have been issued," says the telegram, "to adopt the route between Victoria and Seymour Narrows at once." Now, we contend that this is wholly unwarranted. It is untrue. It is absolutely wicked. In his report to the Government Chief Engineer Fleming stated that it would be most unwise to decide upon the route to be adopted through British Columbia until the completion of the experimental surveys. Acquiescing in that opinion the Government asked Parliament to vote a large sum of money for the purpose of completing these surveys; and they succeeded in getting the item passed, although Mr DeCosmos took care not to give them the benefit of his vote on that important occasion. "Swarms of Canadian Surveyors," as our cotemporary expressed it the other day, are now on the way out, and parties are being formed for the purpose of completing these surveys. According to latest accounts, Sir Hugh was still in England, and there had been no meeting of the Directors. In the name of common sense, then, how is it possible that any such "orders" could have been "issued," and who was to issue them? That the road will come to Esquimalt there is little room to doubt. That it will come by way of Seymour Narrows may be a trifle less certain. But that no decision will be arrived at as to the particular route by which it will reach Esquimalt, until the completion of the experimental surveys, would not appear to be open to question. That no such decision has been come to, there need not be the slightest hesitation whatever in affirming. But, it may be asked, What possible object could be gained by manufacturing such nonsense and telegraphing it across the continent? It is with facts, not motives, we have to do. And yet yesterday's leading article in the local print which blows for Mr. DeCosmos supplies the key to the motive. Having failed, signally failed, lost caste, and completely ostracised himself from all the other members of the British Columbia delegation, and feeling that his position in the Provincial Government was none too strong, Mr. DeCosmos concluded that an effort must be made to shed a halo of glory around his return. What could be better than a flash of electricity, touching this community in its most vulnerable part? No sooner conceived than executed; and a private telegram was also sent, instructing his assistant editor to write an article, telling the people that DeCosmos did it all. That is really the whole story; and the junior member for Victoria hopes to re-enter with this halo resting on his brow! Mrs. Malaprop says that "comparisons are odorous," and we should say they are, especially in the vicinity of our contemporary's sanctum. A short while ago it said that Mr. DeCosmos was "head and shoulders above all the other delegates from the Pacific Province." Yesterday it tells its few readers that the country is indebted to him for all that has been done in the railway matter, and it asserts that "In fact, he is the only one of all our members at Ottawa who appears to have interested himself at all in the matter." We leave the public to judge of the delicacy and taste of such statements in a paper having "A. DeCosmos, Editor," standing at the head of its columns. In so far as the truth of these statements is concerned, it seems scarcely necessary for us to say that they contain no such element. It is now very generally understood that of all the delegation he has done the least. During the very first session the senior member for this city succeeded in winning the confidence both of the great money men and of the Government. From that time to the present, he has won every railway card he has played, and we now find him moving in the inner circles, while that bundle of selfishness and pomposity still struts in vain on the outside, pursuing the Government with silly questions which any fool could ask; and then, like the fly upon the wheel, exclaiming, "See what I have done!" Such home truths are not very agreeable; but our contemporary should not have provoked them.

BEGGARS.—A recent writer upon "Mendicity," in the *Contemporary Review*, gives some of his own experiences of beggars, a theme upon which he seems well qualified to speak. He is a clergyman. Some time ago an elderly gentleman called upon him and sent in his card, upon which was printed the "Rev.——, M.A." He shook hands with him, and, he with "evident emotion," began to rehearse the tale of his wife's death, which had necessitated his coming to ask him to purchase some of his works. "Well, Mr.——," said the writer, "I do not think it worth while to repeat the reasons I gave you on your first wife's death for not buying any of your works." "Then I have called on you before?" he asked, and withdrew. This same "Rev.——, M. A.," made a similar call upon a friend of the writer's, who said he could not assist him without knowing more about him. "Sir," said the other, "the Master never made inquiries before he gave help." "No, but the Master knew what was in man, and I do not." The writer thinks that harm has been done by people making the attendance of mendicants upon church a condition of their charities. It has encouraged hypocrisy. He overheard a conversation between two poor women of the profession upon the hardness of the times. "And how do you get along this winter?" said one. "Very poorly, indeed," said the other, "there'll soon be nothing for it but to take to morning prayers." This woman evidently was not a hypocrite by nature; she chose hypocrisy as the last resort.

SUBSISTING ASSURANCES at 15th November, 1872, (of which £983,419:11s: 1d Re-assured with other offices).....	£17,244,084 8 2

Revenue, upwards of Seven Hundred Thousand Pounds per Annum.

Assets, upwards of Four Millions Sterling.

THE STANDARD LIFE ASSURANCE COMPANY was established in Edinburgh in 1825. The Acts of Parliament, 2 deg: &3 deg. Gul. IV. cap. 81, and 8 deg. and 9 deg. Vict. cap. 75, also 22 deg. and 23 deg. Vict. cap. 27, have been granted for the purpose of its constitution and for the regulation of its affairs. It has been conducted with much success, and that result may be attributed not only to the extensive and influential connections of the Company, but more particularly to the liberality of its dealings, and to the constant attention paid by the Directors to the adoption of improvements and facilities in connection with the contract of Life Assurance.

BONUS ADDITIONS TO POLICIES.

The Company have divided Profits on eight occasions, in 1835, 1840, 1845, 1850, 1855, 1860, 1865, and 1870, when very large additions were made to Policies. The next division of Profits will be made in 1875.

Tables of Rates and all further information can be obtained by application at the office of the Company in Victoria, B.C., or at any of the Agencies at home or abroad.

DEATHS.

In this City, at the Royal Hospital, June 13th, John Patterson, aged 49, a native of England.

Truth Stranger than Fiction.

For profound rascality and dashing devilishness of details, few published romances will exceed the life and doings of Jack Hipple, of Pennsylvania, alias the Hon. John Hipple Mitchell, United States Senator for Oregon. A law student with Col. Thompson, of Butler (Penn.) in 1856, he got on extremewell, and was taken into partnership in 1859, having two years before been married to one of his childhood's mates. The marriage seems to have been far from a happy one. In April 1860, Jack took French leave, carrying with him some four thousand dollars properly belonging to Col. Thompson. Shortly after his flight, his partner received a letter from him dated "The Wide World," in which he said he could not live with his wife, and was going away to begin life anew, undiscovered and unknown. That was the last the Colonel heard of his partner till quite recently. Jack next turns up in Southern California, having with him a handsome and sprightly young woman, whom he introduced as Mrs. Mitchell, he, himself, having substituted that name for his patronymic. Putting up his shingle at the little town of San Louis Obispo, he entered upon the practice of law. A talented and rising man, he was asked to deliver the fourth of July oration, but before the day came, he had pulled up stakes and left. He next turned up in Oregon, unaccompanied by her he called his wife, who, he said, had died in California. Here again, this man rose, married again, and won his way into the United States Senate by means said to be not the most scrupulous, honorable or commendable. Since that his life has been before the public. Beriah Brown, editor of the Seattle Despatch, 'sums up the villainy of this Senator with two lives and three wives thus:—"The facts that he has passed for years under an assumed name for the purpose of avoiding responsibility for previous acts; that he deserted his wife without making any provisions for her support; that he has twice since assumed the marriage relation under an assumed name and in violation of law, thus entailing illegitimacy upon his children and shame upon their mothers whose confidence he betrayed by false pretenses; all stand confessed, and are only sought to be palliated by the plea of "a perturbed state of mind caused by domestic difficulties;" the artful dodge of the thief and the murderer, who plead "kleptomania" and "emotional insanity" in excuse for their crime. We know nothing about John Hipple's domestic's troubles; but we do know that he has twice since then committed the crime of bigamy—a penitentiary offence; that while his lawful wife was reduced first to menial service and then to pauperism, he was living in luxury with another woman to whom he was married by fraud, under an assumed name, and making munificent donations to aid the cause of Woman's Rights. The record is more befitting a convict in the penitentiary than a Senator of the United States."

Badly Sold.

A telegram to the following effect, having been sent to San Francisco on the 24th ult. has been going the rounds of the Canadian press: "Four thousand Indians from all parts of British Columbia have assembled at New Westminster in council. Dr. Powell, Superintendent of Indian Affairs, will meet them to-day to hear their grievances." Assuming this gathering to have been for warlike purposes, instead of, as was really the case, to celebrate the Queen's birthday, the Ottawa *Free Press* gets off a leading article, in which the following passage occurs:—

"Fancy four thousand Indians—not the bedizened, maudlin degenerate sots of the Ontario reserves, but genuine, ferocious, hideous, painted and plumed savages, as ready to eat a Commissioner as to kill him—fancy four thousand of these gentry even as near as the Gatineau Point! What consternation would there not be in the chief bureau of the aboriginal department?"

NEW BELL.—The delightfully-clear tone of the new bell for Wesley Church was heard yesterday for the first time. The bell has been placed in the cupola and will be hung in its proper position on Monday. It is the gift of an old and valued pioneer member of the Church—William McKay, Esq. Long may he be spared to answer the summons of the sweet-voiced messenger.

TO THE HONORED DEAD.—Should Bute Inlet be selected as the route for the Canadian Pacific Railway, a monumental shaft to the memory of the late Alfred Waddington should be reared at the entrance to the Inlet—a monument built by the subscriptions of the people of the Dominion.

ATTEMPT TO CUT.—A sailor on the British bark Star of Jamaica got drunk yesterday and attempted to cut the carpenter with a dinner-knife which he had secreted in his shirt. He was secured by the crew and handed over to the Police for punishment.

KOOTENAY.—Mr. James Wardle, the Kootenay mail-carrier, arrived at Hope on the 11th inst. His report (by telegraph) will be found under the usual heading. He seems to have made a very quick trip.

THE BREAK.—A few dispatches came over the break yesterday.

Filling Up.

It is ever a pleasing duty to notice the progress of filling up the country with industrious settlers. In our case the duty is all the more gratifying on account of the rareness of opportunities. Messrs. Palmer and McClarty, both of this city, have recently located pre-emption claims in Nicola Valley, with a view to embarking in farming, chiefly stock farming. They have brought from Yale to Ma Valley, Washington Territory, one hundred and five head of breeding cattle, mostly cows and heifers, and placed them on their new homestead. This drove comprises, we are led to believe, some of the best breeds ever brought into British Columbia, being, for the most part, half and three-quarter Durham. This will be an important accession to one of the most progressive and promising districts in the Province. Mr. Palmer informs us that very great difficulty, risk, and expense arise to the settlers from the absence of bridges across some of the larger streams. The crops in that part of the country look exceedingly well, and there is every prospect of a more than usually abundant harvest. All that is needed in order to make the settlers contented and prosperous is an increased demand for their productions, and more facile communication with the mines. The former will, doubtless, come in due course. For the latter the settlers will look to the Legislature, from whence they have a right to expect more liberal treatment in the future.

NOT SO.—In the course of a very weak attempt to justify itself for becoming the medium of promulgating such Grit rumors of the failure of Sir Hugh Allan's scheme, our contemporary says, "At the time the telegrams referred to were sent, the impression was general, both in Ministerial and Opposition circles, that Sir Hugh would not succeed, and our correspondent only gave expression to what was the generally received opinion." This, we must state, is not true. Such may have been the impression in those circles towards which our contemporary gravitated and in which its correspondent moved: although even they were inclined to think it more feigned than real; but to say that it existed in Ministerial circles is utterly and flagitiously untrue.

THE Enterprise sailed for New Westminster at 10 o'clock yesterday morning with twenty passengers. Among those on board were the Messrs. More and two Mrs. Moore, of Nicola Valley, Mr. D. Pratt and wife, of the 17 mile Post, Mr. McDougall and wife and family, Rev. F. B. Gribbell, E. Ferris, and H. Crocker. The freight consisted of 25 sheep for G. Black, of Pitt River, and about thirty tons of merchandise.

POLICE COURT.—Mr. Elliott had only one case before him yesterday. It was that of a man named Beck, who was found on the streets at an early hour yesterday morning with a sort of portable arsenal strapped to him. He was fined $5 and the pistol forfeited. Beck is a ranger, and the Magistrate asked him "What could he want with a pistol in a peaceable community like this?"

THE CROPS.—From every district comes gladsome news of welldoing crops and prospects of abundant harvest. On the uplands especially the recent rains have done good work, and under the influence of growing showers the grain is coming finely to ear. The hay crop will be heavy.

THE LATTICE BRIDGE.—From time to time the Government were warned of the insecure condition of the bridge over Nanaimo River till the day it became a complete wreck, was more than a fortnight; and a timely expenditure of about two hundred dollars would have preserved it; but they preferred to let four thousand five hundred go!

ST. NICHOLAS HOTEL.—There is a prospect of this once favorite establishment being restored to its pristine grandeur, Mr. V. Trevitt, an American gentleman of long experience as an hotelkeeper, having leased the entire building with the intention of opening it as a first class hotel.

PURCHASE.—Mr. Brethour, late of North York, has bought J. Meaney's farm of 160 acres at North Saanich, and added it to the "broad acres" he had previously acquired. Yesterday Mr. and Mrs. Brethour, with their nine children, proceeded to occupy the farm buildings just erected for their accommodation

PILOT BOARD.—This body met yesterday. The certificates of Capts. Clark and Ramsay, previously appointed Pilots, were issued, and the Board passed several hours in framing rules for the government of the Pilots.

THE steamship Prince Alfred sailed at 4 o'clock yesterday morning from San Francisco. The names of Rev. Dureau, F. Garesche, G. Watt, and H. Malish were added to her passenger list.

EX-MAYOR FRANKLIN.—We are concerned to hear that at the date of the departure of the last steamer from San Francisco for this port, ex-Mayor Franklin was lying dangerously ill.

BARCLAY SOUND.—Several parties, with an eye to speculation, have gone over to Barclay Sound. Immense mines of iron are said to exist there and the land is being taken up.

VICTORIA HOUSE.—On view to-day New Bonnets, Hats, Real Lace Shawls, Dress Goods, Costumes, &c., &c. *

SUIT.—Ex-Messenger Force has commenced suit against the city for compensation.

STITCH! STITCH! STITCH!—But no longer with fingers weary and worn. For the justly celebrated "Lockman Sewing Machine" can be had of the undersigned. This machine has more points of excellence than any other yet invented. In simplicity of construction, perfection of workmanship, ease of working, durability cheapness and many other valuable qualities, it stands unequalled. Sold at Canadian prices, by BROWN & WHITE, new Dry Goods Store, Fort street, Sole agents for Vancouver Island. *

A. GILMORE has just received a large assortment of Canadian and English Custom-made Clothing, which he will sell at Reduced Prices, therefore the public are invited to call and select for themselves and make their purchases before going elsewhere. * *

By Electric Telegraph.

THE "COLONIST'S" SPECIAL DISPATCHES.

LAST NIGHT'S DISPATCHES.

Later from Kootenay.

HOPE, June 11.—I arrived at Hope thirteen days from Kootenay; no news of importance; provisions very cheap; flour eight cents; beef from eight to twelve cents on the block; bacon twenty five cents and other things in proportion. There are three parties prospecting, one on the Mayo, one on the River and one on Dutch Creek. The water is very high and a great many creeks are all but impassible. Pack trains will be able to cross the Hope Mountains in eighteen days. JAMES WARDLE.

Europe.

LONDON, June 11.—A special to the *Daily News* from Rome says many monks belonging to Monasteries which are to be suppressed will go to Bolivia.

MADRID, June 11.—The columns of troops which mutined against the authority of Gen. Velarde at Ingalda have been reorganized and are now commanded by Gen. Cathenery; the mutiny arose from Gen Velarde supplanting a captain. 1500 of the troops remained faithful, and went with Gen. Valarde to Jastoha.

Eastern States.

NEW YORK, June 11.—The London *Telegraph* of May 29th says the Empress of Russia and the Duchess Maria had an interview with the Pope and Cardinal Antonelli yesterday.

CHICAGO, May, 11.—A Washington special says the administration organ says that persons who profess to know predict that neither Capt. Jack nor any of his followers will be hanged. A Military Commission will be organized by Gen. Schofield and will doubtless try the prisoners; but the findings of that Court must be approved by the President.

NEW YORK, June 10.—The *Post* says that Bowles Brothers and Co. have come out of the Bankruptcy Court in a better condition than most friends ventured to hope. The assignee, we are told, makes an offer to creditors of 50 cents on the dollar, which, according to law, releases the house from liability. The members of the house, however, have issued a statement to the creditors saying they will pay the other 50 cents, and will be under obligations to do so when they have received their legal discharge. They propose to resume business speedily.

NEW YORK, June 11.—Frank H. Walworth, arraigned in the Court of Oyer and Termine to-day on a charge of having murdered his father, pleaded, through his counsel, Judge Garvin, not guilty.

MEMPHIS, June 10—Cholera is undoubtedly increasing. There were 18 interments to-day against 11 yesterday. Hon. Jacob Thompson is dangerously ill with the cholera.

WASHINGTON, June 11 — The massacre of the Modoc captives at Lost River is denounced by everyone here. General Sherman with the military, and Attorney General Williams with the judicial authorities, will exercise every possible means to capture and punish the culprits.

WASHINGTON, June 10—Information received to-day states that the Government of Great Britain have made arrangements through the Bank of England with the bankers here to deliver to the Secretary of State, on or before the 13th September, $15,500,00 awarded by the Geneva tribunal to the United States.

MEMPHIS, June 10—One of the most severe rain and thunder storms ever known here, accompanied by immense sheets of electricity, raged last night. In an hour and a half 2 75-100ths in. rain fell. It is feared great damage has been done to the agricultural interest of the adjacent country, but the sanitary condition of the place is greatly improved.

Hon. Jacob Thompson is recovering from an attack of cholera.

MR. LOWE IN THE COUNTY COURT.—Last week, at the Brompton County Court, John Hull, a butler, brought an action against the Chancellor of the Exchequer to recover the sum of £8 15s.—a fortnight's wages due and a month's wages in lieu of notice. The plaintiff deposed that he had been in several good families as butler and servant. About the end of March last he entered the service of Mr. Lowe as butler at £70 a year. One day, feeling very tired, he sat down behind the back drawing-room door. Mrs. Lowe saw him through the opposite glass, and, saying he had committed an unpardonable offence, discharged him. He merely rested for a few seconds, not intending the slightest disrespect either to the drawing-room or to Mrs. Lowe. A fortnight's wages then due were offered on condition of his foregoing further claims, but this he respectfully declined to do. Mr. Lowe, who occupied a seat on the bench, deposed that the plaintiff had been repeatedly insolent and neglectful. For instance, he failed to report a dangerous escape of gas in his house. On the occasion in question a large company was to be present, but the defendant, instead of attending to his duty, sat down in the drawing-room, folded his arms, and said he was too tired to do any more work that day. A short time previously he had refused to answer a bell, and when sent for, told the page that he "would have no more of Mrs. Lowe's jaw." She had not a particularly good character with him, but he was a teetotaller, and that was an enormous advantage. The page and a woman servant confirmed Mrs. Lowe's statement, the former creating much amusement by the representation of the attitude of the plaintiff when he seated himself in the back drawing-room. The judge, Mr Macnamara, said that if the plaintiff had sat down in his mistress' room to tie his shoe no harm would have been done. As it was, he sat down for recreation, thereby committing an offence. Moreover, it was proved that he had been deliberately disobedient and disrespectful. Judgment was given in favour of the defendant.—"London Times" May 6.

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony. * *

Clerical Shortcomings.

This is how Bishops of the Period are handled in the London Church "Herald" a Paper of Ritualistic tendences:—

"There never was a time when Bishops were so painfully commonplace and notoriously unremarkable. Now we are blessed with popularity-hunting prigs, gaitered chatter-boxes, flimsy scholars, smug vulgarians; men whose principles, whether good or bad, are so deeply buried in the dark recesses of their own consciousness, that neither themselves nor anybody else have ever been able to find them out." Then it is asked—

"Who that had been present at the so-called 'Working-men's meetings' at our autumnal congresses has not felt a glow of shame suffuse his heart, and a blush of ignominy crimson his countenance, when listening to the soulless twaddle and degrading commonplace flowing out of episcopal mouths on such occasions? No high principles taught, no lofty and Divine truth inculcated, no distinctive Church doctrine set forth, no sins and shortcomings of working-men boldly and bravely rebuked. Flummery, flattery, and platitudes enunciated by the ever-talkative wind-bags of the episcopal bench. Does any sensible man think for one-half second that by such painful and degrading exhibitions, in which bishops both in matter and manner are lowered to the low level of tub-orators the Church of England is helped in any way, or the opposition of consistent religious opponents of that Church successfully bought off."

Here is another choice bit from the sketch of the "Bishop of the Period"—

"Cunning and clever, he keeps as chaplains lick-spittle creatures of the baser sort, who hoist moral storm-signals to see which way the winds blows, or who act as clerical detectives in plain clothes, and inform his lordship of their earnest labours. The bishop only exercises hospitality when such work is absolutely essential, being stingy, penurious, and grasping. With nauseous ostentation, owning £5,000 a-year, he has cut down his household expenses, so as to save money and found a family. Butler, footman, and pages are not now at the palace. And a witty country wag libellously avers, that the bishop is shaved by the lady's-maid. He rides to confirmation in a gig, or sometimes walks all the way in wet weather, taking care that one of his literary chaplains privately informs some the London newspapers of his truly humble and Christian spirit."

GRIEVOUS.—A sorry story is told of the mill-operatives in Rhode Island. Fifteen hundred of them, assembled in mass meeting in Providence a day or two ago, were mostly overworked women and children—many of the latter of tender years. The women are described as worn and haggard and wild-eyed. The young girls, stunted by the wretched life of the mills, were sunken-eyed, wan and ill. Some of the wretched people, says a correspondent who studied the faces of the dismal crowd, looked as though there was hardly five years life in them. It is not an extraordinary circumstance that they have "struck." The over-hours and bad atmosphere have produced their natural results; and in this case a strike is an excusable attempt to apply a remedy. Evidently a law is needed to regulate the hours of factory labor and to protect the children from abuse.—*N. Y. Advertiser.*

A SINGULAR assassination has been committed in broad daylight, near the Central Market, Paris. An open cab, with a gentleman inside, smoking his cigar, was standing in the gutter apparently waiting for somebody. Suddenly, a poorly clad individual was seen to jump into the vehicle and stab the occupant twice in the chest and back with a clasp knife. He then took to his heels, but was captured by the police. The gentleman in the cab died in a few minutes, without uttering a word of explanation. On him were found love-letters from a young lady, and cards showing him to belong to a noble family. The murderer calls himself a schoolmaster, and says the motive of his crime was revenge for the seduction of his wife.

THE towers of the Cathedral of Cologne have now reached the height of 230 feet. The construction of the spires, which are to bring the total height up to 600 feet, will be commenced. Six years more are required for terminating the work.

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superseded what used to be claimed as "superior to any other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared on his premises on Government street, and sold by all the principal dealers. * *

WE wonder what induces David Green the Clothier, of Government street, to advertise, as everyone is aware that he keep the best fashionable made clothing store north of San Francisco. * *

Poisoning the Sick.

There never was a specialty in medicine that was not pirated. Hostetter's Stomach Bitters is no exception to the general rule. Fraud follows in the track of the Great Vegetable Restorative as it makes the circle of the world, and offers its pernicious imitations to the sick at every turn, anxious to drench the public with their trash. The imitators and counterfeiters offer it by the gallon, the barrel, the hogshead, as well as by the bottle. Beware of this deluge of abominations. Bear in mind that the true article is sold in bottles only, and the impress of genuineness is to be found upon the glass itself as well as upon the finely engraved government stamp and the elegant label. The great vegetable tonic prevents and cures all bilious disorders and complaints of the digestive organs and the nervous system, maladies upon which the vile imitations produce no more effect than the Pope's Bull upon the comet.

PUBLIC MEETING.

A PUBLIC MEETING WILL BE held at the Prairie Tavern, South Saanich, on Saturday the 28th inst., at 7 o'clock, p.m., for the purpose of discussing the utility of the Fourth Portfolio and the Sixth Minister, and the influence of the Canadian Tariff upon the Agricultural Interests of the country. This meeting is the result of a challenge given to Mr Bunster by the Chief Commissioner of Lands and Works. The Electors of Victoria District are particularly invited to be present, as the Chief Commissioner intends to justify the present Ministry in the course they pursued last session in refusing to the Farmers a Modification of the Tariff and burdening the country with a Fourth Portfolio and a Sixth Minister.

Medical.

FRENCH MEDICINES

Prepared by

GRIMAULT & CO.,

Pharmaceutical Chemists,

8, Rue Vivienne,

PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

Loras' Liquid Phosphate of Iron.

It contains the constitutive elements of the bones and of the blood, add is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.

GRIMAULT & CO.'s
Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest. It relieves coughs, effectually prevents nocturnal perspiration and restores the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s
Iodized Syrup of Horse Radish.

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s
Pepsine Digestive Powders, Pills, Elixir and Wine.

Pepsine is one of the most recent scientific discoveries in therapuitics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconvencies of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation of pepsine.

Lagasse's Syrup and Paste of Sea Pine Sap.

Employed with success in the treatment of catarrh, bronchitis, hæmoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

GRIMAULT & Co.'s
Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures that result from the use of injections having a metallic basis.

GRIMAULT & Co.'s
Pectoral Lozenges of Lactucarium and Cherry Laurel.

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influenza, bronchitis, hooping coughs, &c.

Asthma. Asthma.
GRIMAULT & Co.'s
Indian Cigarettes of Cannabis Indica.

All the means hitherto employed to relieve Asthma have been only palliatives in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomnia.

Grimault & Co.'s Guarana.

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels. This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.

GRIMAULT & Co.'s
Vermifuge Santonine Dragees.

Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these dragees, the composition of which is well known and always the same, instead of those which are called vegetable, but often contain calomel or other forms of mercury.

GRIMAULT & Co.'s
Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.

The Cod-liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.

Our Newfoundland Oil with Iodide of Iron, which contains in every tablespoonful two grains of pure iodide of Iron, is a valuable resource in lymphatic and scrofulous affections, as also in consumption.

C. Francis Barnard, M. D.
SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyalt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets the best vulcanites of the last 25 years.

We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.

Municipal.

Municipal By-Law to regulate the construction, maintainance and repairs of sidewalks, and foot paths, and verandahs within the City Limits.

[7th May, 1873.]

WHEREAS it is expedient to make provision for the regulation, construction, maintainance and repairs of Sidewalks, Footpaths and Verandahs, within the City limits;

it, therefore, enacted by the Corporation of the City of Victoria, as follows:

Footpaths or Sidewalks of a uniform grade, and with a fall towards the street of not less than one-fourth of an inch to the foot shall, whenever and wherever by the Mayor and Council of the said City shall be deemed necessary or desirable, be constructed on each side of each street within the city limits, and every Footpath or sidewalk shall be not more in width than one-sixth of the width of the street on which it abuts.

Each Footpath and Sidewalk within the city limits shall be made of wood, stone flagging, tiles or brick, or such other material as the Street Committee may approve of; but each footpath or Sidewalk shall be made of uniform material for the whole width throughout its entire length.

Footpaths or Sidewalks already constructed shall, whenever by the Mayor and Council deemed necessary, be altered so as to conform to this By-Law.

If the Footpaths or Sidewalks are constructed of wood, the planks shall be nailed to sleepers, with nails of sufficient length to be driven into the sleeper one and one-half inches, or if constructed with gravel, sides with planks, the planks shall be nailed to good basic) posts; the sleepers shall be placed at a distance of not more than six feet apart, and the posts shall be sunk into the ground to the depth of eighteen inches, and at distances of not more than six feet apart.

5. All planks, sleepers, and posts referred to in this By-law shall be of sound material; the planks shall be not less than 1½ inches thick and not more than 10 inches wide, and not less than one-sixth of the width of the street in length, and the sleepers and the posts shall be of sufficient lengths, and shall not be less in dimensions, than 4 inches by 4 inches or 3 inches by 6 inches; but it shall be lawful for the Mayor and Council by-solution to permit sidewalks of less width.

6. In order to insure uniformity all Footpaths and Sidewalks shall be constructed, altered or kept in repair, (as the case may be), by and at the expense of the owners of the property fronting the same respectively, in accordance with the directions, for the time being, of the said Mayor and Council or Street Committee on their behalf.

7. All footpaths or sidewalks shall be kept in repair and thrown good and uniform material and at the cost of the owner or owners of the property fronting the same or of that portion thereof which requires repairs in accordance with the direction for the time being of the said Mayor and Council, or Street Committee on their behalf, and in case any footpath or sidewalk or any portion thereof shall require repair, or in case the said Mayor and Council or Street Committee on their behalf, shall deem it expedient to direct) that a new sidewalk be constructed or that an existing sidewalk be altered and the owner or owners of the property fronting on such sidewalk so requiring to be repaired or altered, or on that to all portion of the street where such sidewalk may be ordered to be constructed, shall omit to repair, alter or construct such footpath or sidewalks as the case may be within the time specified in the notice on that behalf after he or they shall have been served with a notice in writing under the hand of the Clerk of the Municipal Council of the said City requiring him or them to do, the said Mayor and Council, or Street Committee on their behalf, shall be at liberty to cause such footpath or sidewalk to be repaired, altered or construct, and the expense, costs and charges thereof shall be recoverable at law in the name of the Clerk of the said Municipal Council from the person or persons so, by this By-Law, or by any other By-Law in force, are made liable to alter, construct or keep the same in pair, and if such expense, costs and charges be not paid by the owner or owners, agent or agents, of the property abutting on the footpath or sidewalk which shall have been so repaired, altered or constructed within seven days after notice in writing on that behalf, under the hand of the Clerk of the Municipal Council of the completion of such repairs, alteration or construction, the amounts due shall be recoverable in the usual manner in the County Court, and in the event of any judgment rendered therefore not being paid or realized or if the owner or his agent, (if any), being unown, the charge for such construction, or repairs, alterations, or the judgment, (if any), rendered in respect thereof may be registered as a claim against the said property, with interest at the rate of five per cent. per annum.

8. Where any portion of any Footpath or Sidewalk in the said city may be required to be used by any waggon, cart or other vehicle, for gaining access to any premises the sidewalk, if constructed of wood, shall be laid longitudinally, of plank not less than two inches thick and the same level along the length of such Footpath or Sidewalk.

9. Prior to execution of any works to be done by or under the direction of the said Mayor and Council, under or by virtue of the provisions of this By-Law, a notice under the hand of the Clerk of the said Municipal Council, soliciting tenders for the performance of such work, shall from time to time, as occasion shall require, be advertised for five consecutive days, and such work shall be let to the lowest bidder, who, within two days next after the acceptance of his tender, shall proceed with the work and when required by the Mayor and Council shall execute a bond to their satisfaction for the due performance of the said work, in the name of the Clerk of the Municipal Council. In case of his or her contract such bond may be sued upon and enforced by the said Clerk, on behalf of the said Mayor and Council.

10. A good and sufficient fence or railing of a character, material, and in manner to be approved of by the said Mayor and Council, or the Street Committee on their behalf, shall be set up, erected, constructed and maintain, at the expense of the owner of the property as aforesaid, at the side or sides of any such Footpath or Sidewalk, when and where by the said Mayor and Council, or the Street Committee as aforesaid, shall from time to time be deemed necessary for the safety of the public and such fence or railing shall be set up, erected constructed by the owner or owners, or by his or their agent or agents, within such time as may be specified in any notice in that behalf, given under the hand of the Clerk of the Municipal Council of the said City.

11. For the purposes hereof, any notice shall be deemed to have been sufficiently served, when the same shall have been either delivered to the person to be affected thereby or left at his last known place of abode in the Province, or served on the agent or agents of said owner or owners, or deposited in the Post Office, addressed to his or their last known place of abode or affixed to some conspicuous part of the premises to which the notice relates.

12. No person shall ride, or shall drive, wheel or draw any waggon, cart, barrow or other vehicle upon, or along, or across any public Footpath or Sidewalk within the city limits (except hand carriages for children) and no person having the charge or control of any beast of burden shall intentionally cause or permit the same to stand or go upon any public Footpath or Sidewalk as aforesaid, or to stand upon any street crossing, or so near to a street crossing as to obstruct the same.

13. No person shall back any waggon, cart, dray or other vehicle against any Footpath or Sidewalk within the city limits.

14. No person shall be permitted to place on the Footpaths Sidewalks any barrel, bale crate or anything whatever which in any way obstructs the Footpaths or Sidewalks, or which may be considered a nuisance by the said Mayor and Council, or Street committee on their behalf, unless in the case when packages are being carried for the purpose of taking the contents into warehouses during a reasonable hour and all convenient speed shall be used in removing the same, but under no condition will any articles be allowed to remain on the Footpaths or Sidewalks after dark.

15. Whenever in the opinion of the Mayor and Council it shall be desirable before altering, repairing or constructing a sidewalk in any part of the city, to cut down, grade or blast and remove rocks from that portion of the street upon which such Sidewalk so to be altered or repaired may exist, or upon which the said Mayor and Council may intend to cause a new Sidewalk to be constructed, then such cutting down, grading and removing rocks shall be done by and at the expense of the owners of the property fronting or abutting upon the side and portion of the street upon which such cutting down, grading or removing of rocks shall be directed by the said Mayor and Council, and in case such cutting down, grading and repairing shall not be done by such owners upon notice hereof to be given, then and in such case such proceedings may be taken by the said Mayor and Council as are prescribed in the case of owner neglecting to repair, alter or construct sidewalks.

16. Any person or persons who shall interrupt the travel on any highway by opening or excavating any portion of the footpaths on the same without first obtaining consent of the Municipal Council or the Street committee on their behalf, shall be liable to the penalties mentioned in Section 24 of this By-Law.

17. No person shall, in the front of any building, erect any bay or bow window, which shall project on the line of the street.

18. Verandals or awnings must extend from the front line of any buildings to the outside edge of the Footpath, and if constructed of wood, must be of planed lumber of the following dimensions: The posts shall not be less than 4x4 in. and let into the curb of the Footpath. The Front plate or Girth shall not be less than 2x10 inch planks. The rafters or joist shall not be less than 2:6 inch, and shall not be placed more than 6 feet from centres. The purlins shall not be less than 2x4 inch scantling. The flooring or roof shall be of tongued and grooved boards not less than one inch in thickness.

19. The covering or floor of any awning or verandah shall not be less than fourteen feet above the level of the Footpath. The cornice of the same shall not project more than eight inches beyond the line of the Footpath, except by resolution of the Mayor and Council.

20. Iron balconies supported by iron brackets shall not project more than three feet from the front line of any building to which they are attached.

21. Areas, projecting from the front of buildings must be covered over with iron, or strong wooden gratings; the space between the bars of the same shall not exceed one inch.

22. No steps or boot scrapers shall be allowed on the Footpaths, nor gates or doors opening outward.

23. Hereafter no hanging or stationary signs crossing a Footpath shall be less than nine feet from the lower edge of sign to Footpath.

24. Any person or persons failing to comply with any provision, or any part thereof, of this By-Law, shall be punished in a summary way by a fine not exceeding fifty dollars, or by imprisonment not exceeding one month at the discretion of any Justice or Justices of the Peace having jurisdiction within the Municipality.

25. It shall be the duty of the Police Constables of the City of Victoria to use their best endeavors to prevent any infraction of any of the provisions of this By-Law, and to take all necessary proceedings for bringing to punishment parties guilty of any such infraction.

26. This By-Law may be cited for all purposes as the "Victoria Footpath and Awning By-Law, 1873."

Passed the Municipal Council this 7th day of May, A. D., 1873.

WM. DALBY, MAYOR.
WM. LEIGH, Clerk to the Municipal Council

Municipal.

VICTORIA WATER WORKS.

UNDER AUTHORITY OF THE CORPORAtion of Victoria Water Works Act, 1873, and the Municipal By-Law authorizing the construction of Water Works for the City of Victoria, 1873:

Debentures.

Applications will be received at the office of the undersigned until the 21st day of July for the SECOND ISSUE of Water Works Debentures, and should application be made for more in amount than the issue authorized by the Act, they will be distributed pro rata.

The Debentures will be issued at par as follows, viz

$10,000.....On 15th May, 1873;
15,000.....On 1st August, 1873;
75,000.....On 1st April, 1874;

Payable in Twenty-five Years from date thereof.

The Corporation of the City of Victoria having the right to repurchase from time to time the said Debentures, for the purpose of withdrawing the same from the market, the numbers of the Debentures so to be repurchased shall be decided by a Ballot, of which One Month's notice shall be given, by publication in the Government Gazette or in one or more of the local newspapers. The Debentures will bear interest at the rate of Seven per cent. per annum, payable Half-yearly, and Coupons will be attached to each Debenture for said Interest, which shall be paid on presentation as they become due.

The Security offered for Repayment of Debentures is as follows:

A preferential Lien will be given on all Works to be erected, also upon the Land and other property acquired for Water Works purposes, and on the Revenue, (amounting to about fifty thousand dollars per annum) which the Corporation have the power to raise under the Municipality Act, 1872, and the Municipality Act Amendment Act, 1873, the Road Ordinance, 1869, and the Road Amendment Ordinance, 1870. Ample security is thus given to those wishing to invest in Debentures.

A Deposit of Ten per cent. on the amount of Debentures applied for will require to be paid into the Bank of British North America to the credit of the Water Works account, a receipt of said deposit to accompany the application, and on the Debentures being issued, they will be placed in the said Bank and handed over to the party who presents the Water Commissioner's Certificate of his being entitled to receive the said Debentures on his paying the full equivalent as mentioned in said Certificate; and in the event of the Debentures not being fully paid for on the day of issue abovementioned, the deposit of the Ten per cent. shall be forfeited to the use of the Water Commissioner for Water Works purposes.

Mr. F. W. Green, C. E., has been appointed by the Corporation as Engineer of the Works to be constructed. The proposed Works consist in bringing water from Elk and Beaver Lakes into the City of Victoria, a distance of between five and six miles, and present no engineering difficulties in carrying out the undertaking.

Forms of Application for Debentures, with Bank Deposit Receipt attached, as well as any further information that may be desired, can be had by application personally or by letter addressed to the Commissioner

JAMES D. ROBINSON,
Commissioner.

City Council Chambers, Broad St., Victoria, 26th April, 1873. ap27

Corporation of the City of Victoria.
Municipal Notice.

ALL PERSONS OWNING PROPERTY within the extended Limits of the City are hereby requested to make a return of the same to the City Assessor as early as possible, giving the number of the Lot or Lots or Portions of Lots with the measurements; also to name the block or section in which said Lot or Lots are situate, as such returns would probably save the expense and annoyance of appeals to the Court of Revision.
